Employment History

Frontend Engineer, Axios

Jul 2021 — Present  Remote

- Collaborated with designers, product managers, and software engineers to deliver compelling user-facing solutions.
- Optimized audience page performance by 10% through new React Query implementation.
- Engineered and maintained major features of the HQ team's web app using JavaScript (ES6+), TypeScript, React, Tailwind & REST API integration.
- Architected efficient and reusable front-end systems that drive complex web applications.
- Effectively coded software changes and alterations based on specific design specifications.
- Work with other members of the engineering team through pair-programming and empathetic code review.

Frontend Engineer, Trazi Ventures

Oct 2020 — Jul 2021  Remote

- Write modern, performant, and robust code for a diverse array of internal projects.
- Work with a variety of different languages, frameworks, & platforms such as JavaScript, React, Vue, Nuxt, & Sass.
- Wrote custom unit tests using Jest to ensure quality assurance.

Frontend Developer, Carroll Bradford

Oct 2019 — Oct 2020  Orlando

- Engineered and maintained major features for the company's app using JavaScript, Bootstrap, Vue, React, jQuery, & CSS/Sass.
- Collaborated with product & design to spearhead a new brand and design system for Carroll Bradford's redesign initiative.
- Architected meaningful contributions to the long-term maintainability and health of the product.

Web Developer Intern, University of South Carolina

Jun 2018 — May 2019  Beaufort

- Developed and maintained code for in-house websites primarily using HTML, CSS, JavaScript, and jQuery
- Provided support to site administrators and resolved technical support issues for the departmental SharePoint web portal.

Education

University of South Carolina, B.S. Business Administration

2017 — 2019

Graduated with a 3.6 GPA
